

Lane Crawford

CONFIDENTIAL

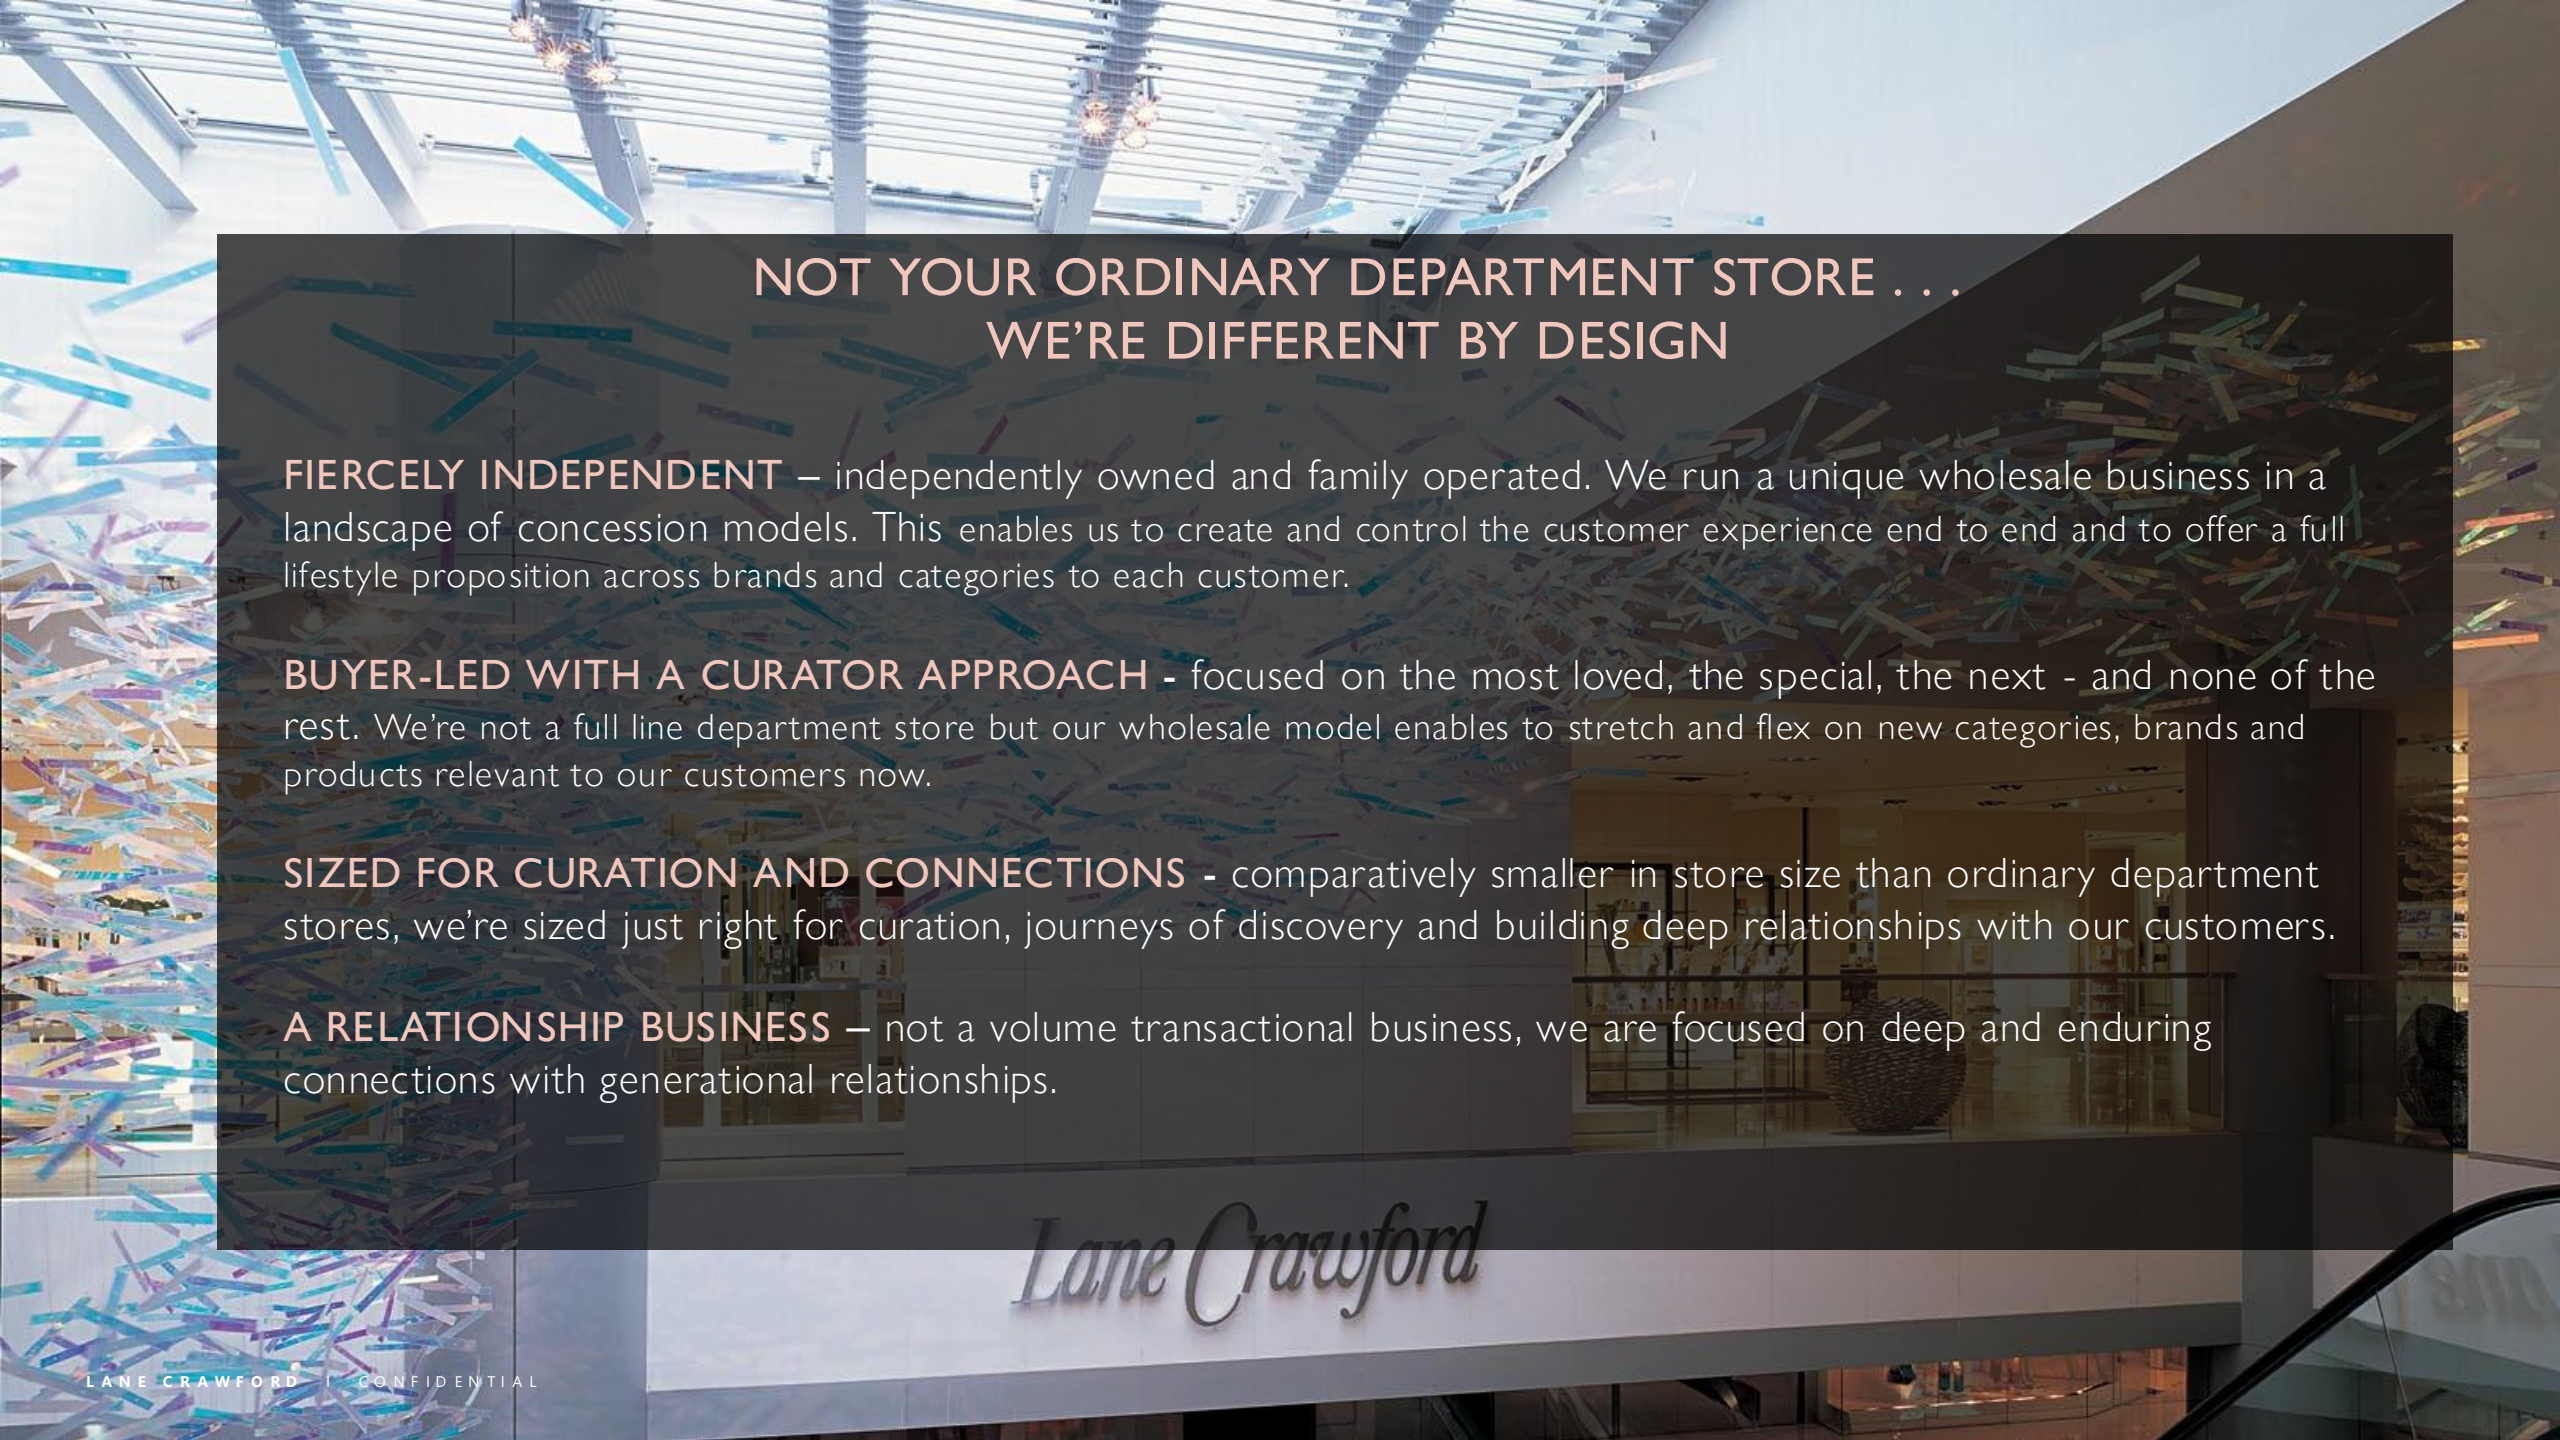

Founded in Hong Kong in 1850 and launched in Shanghai in 1862, Lane Crawford is an internationally renowned luxury department store and Greater China's most authoritative multi-brand, multi-category business, rooted in a dynamic Asian spirit, aesthetic and values.

We search the world to deliver an exceptional and eclectic curation of the special, the new and the next of fashion, beauty, home and lifestyle, to inspire our customers with new ways to feel great and live amazingly.

Having built deep and enduring relationships serving more than six generations, our business occupies a uniquely privileged role in the lives of the most influential and affluent customers across Greater China.

Embracing our pioneering heritage, with our purpose to Defy The Ordinary To Reimagine Luxury, we continually push boundaries to reimagine what luxury means to us at any given time and creating and curating new ways to experience it.

NOT YOUR ORDINARY DEPARTMENT STORE ... WE'RE DIFFERENT BY DESIGN

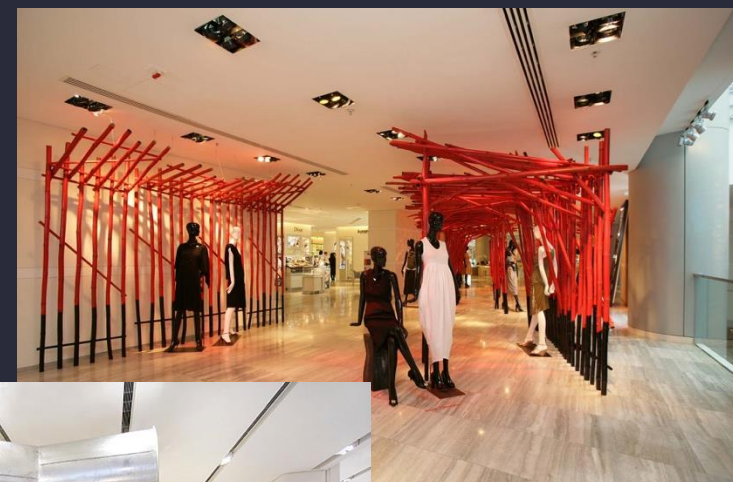

FIERCELY INDEPENDENT – independently owned and family operated. We run a unique wholesale business in a landscape of concession models. This enables us to create and control the customer experience end to end and to offer a full lifestyle proposition across brands and categories to each customer.

BUYER-LED WITH A CURATOR APPROACH - focused on the most loved, the special, the next - and none of the rest. We're not a full line department store but our wholesale model enables to stretch and flex on new categories, brands and products relevant to our customers now.

SIZED FOR CURATION AND CONNECTIONS - comparatively smaller in store size than ordinary department stores, we're sized just right for curation, journeys of discovery and building deep relationships with our customers.

A RELATIONSHIP BUSINESS – not a volume transactional business, we are focused on deep and enduring connections with generational relationships.

THE DESIGN BRIEF

To create an umbrella design concept that can be adapted to each location, then a detailed design concept for each store that reflects integration of Food Retail and F&B (see floor plans). Also design a pop-up format that can go into other venues.

These spaces are destinations within the greater LC stores – some deep inside, like IFC and Times Square, while Pacific Place has visibility and entrance from the mall, and Canton Road has entrance from the busy walkway from Star Ferry into the mall. There is no one design aesthetic across them all. IFC and PP are the most modern and representative of the Lane Crawford brand, so integration into these different spaces requires a creative solution.

Each space needs to pop, grab attention and invite traffic passing to come in. They should be high-energy, sparking curiosity - quirky and fun with a sense of humour. Highly-Instagrammable.

This is a place to stop with friends, take time out and play and pose with the product.

Retail is story-driven but should also be designed for high productivity.

THE DESIGN BRIEF

Features:

- An integrated Food Retail and Light F&B space which is highly modular, allowing for changing brands and offers over time.
- Retail fixtures, display units and and multifunctional bar area which allows for changing offers without re-designing the spaces.
- Organic vs clean modern texture
- Unexpected moments as anchor
- Generic colour framework with colour overlay
- Lighting that can change mood, but is sympathetic to the food displays
- Easy to clean flooring material in F&B area
- Unconventional signage system
- Texture wall art
- Areas to encourage community: tasting zone; mobile and friendly seating that can come in and out of the space depending the F&B partner at the time and licensing constraints.
